

Integrated Agriculture-Aquaculture: A Primer

By FAO

Daya Publishing House, 2005. Hardcover. Condition: New. This primer is an edited and slightly revised version of a previously published integrated agriculture aquaculture (IAA) technology information kit. It contains 38 contributions in seven sections, covering sociocultural, economic and environmental considerations in introducing IAA technologies, overviews and various examples of integrated farming systems including livestock-fish and rice-fish integration, as well as selected aspects of fish feeding and management, and fish breeding and nursing in IAA. The document aims to give decision-makers concerned with agriculture and rural development an overview and a basis for understanding the principles of IAA and help them decide whether to embark on IAA activities and include these in their programme portfolio. For those who work directly with farmers, the primer aims at providing good examples of IAA, but it is not intended to be a compilation of procedures to be strictly followed. Rather, the primer should help convince its readers/users that farmers can improve their livelihoods by either introducing IAA or by further developing the many IAA opportunities on their existing farms.;;Contents;Chapter 1: Considerations in Introducing Integrated Agriculture-Aquaculture Technology; Sociocultural considerations when introducing a new integrated agriculture-aquaculture technology by E Worby, Economic considerations in introducing integrated agriculture-aquaculture...

Reviews

Very beneficial to all of class of people. I am quite late in start reading this one, but better then never. You may like just how the writer create this publication.

-- Audra Klocko PhD

Thorough information! Its this type of great go through. It is amongst the most incredible publication i actually have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.
